About the Host Company

AiPply (Dinmay Jobsearch Tech LLP) is an AI-powered job application tool and career platform that automates job search and application workflows on behalf of job seekers.

Corporate Mission

Alleviating job application fatigue by automating portal applications, optimizing ATS resumes, and providing actionable career guidance.

Target Audience

College engineering students, fresh graduates, placement aspirants, and early career professionals across India.

Official Ecosystem

Founder Tanmay Garg, www.aipply.io, live resume workshops, cold emailing guides, and student community channels.

Core Role & Responsibilities

Content Planning

Structured monthly content calendars for Instagram & LinkedIn tailored to distinct audience demographics.

Copywriting & Hooks

Crafted high-converting scroll-stopping hooks, carousel scripts, and educational long-form post copy.

AI Workflows

Leveraged LLM workflows (ChatGPT, Claude, Gemini) for research, prompt engineering, and visual creative ideation.

Visual Design

Designed minimalist brutalist post creatives, swipeable carousels, and event promotional assets in Canva.

Founder Collaboration: Worked directly as Social Media Manager alongside Founder Tanmay Garg and internal teams on overall brand voice and strategy execution.

The Strategic Objective

Trust First, Marketing Second

The core objective was to position AiPply as a trusted career advisor rather than pushing generic advertisement campaigns.

- ✓ **Problem-First Approach:** Address real placement stress and job-search pain points before introducing product solutions.
- ✓ **Minimalist Brutalist Aesthetics:** Stand out on crowded feeds using high typography contrast and clean layouts.
- ✓ **Organic Engagement:** Build genuine student community conversations instead of forced clickbait.

5 Core Content Pillars

1. Placement Season

Campus hiring trends, ATS resume shortlisting reality, recruiter expectations, and placement survival guides.

2. Career Education

Cold emailing frameworks, LinkedIn profile optimization, interview preparation, and application tactics.

3. AI Productivity Tips

Actionable AI prompts, automation hacks, and intelligent tools for job seekers to streamline career tasks.

4. Product Integration

Positioning AiPply features as logical solutions to previously addressed placement hurdles.

5. Community & Culture

Internship announcements, live founder workshops with Tanmay Garg, student achievements, and interactive polls.

Content Creation Lifecycle

01

Research & Brainstorming

Identifying student placement anxieties & trending hiring topics.

02

AI Prompting & Scripting

Using LLMs to generate high-converting hooks & structured outlines.

03

Design & Review

Designing brutalist assets in Canva & founder strategy feedback.

04

Publish & Engage

Multi-channel publishing & active student community response.

Human-In-The-Loop Workflow

While AI accelerated research and copy generation, human editorial judgment, creative direction, and strategic review with Founder Tanmay Garg ensured strict brand alignment.

Human Strategy × AI Stack

ChatGPT & Claude Pro

Hook development, copy editing, tone testing, and carousel script writing.

Gemini Pro

Industry research, placement statistics analysis, and structured content planning.

Canva & Visual Tools

Visual asset generation, brutalist design execution, and multi-slide carousels.
