

An Internship Report

Of

Social Media Intern

Submitted

To

School of Computer Science and Engineering IILM

University, Greater Noida, U.P.

In partial fulfilment of the requirement of degree of

B.Tech (Computer Science and Engineering)

By

Roll Number of Student:

25SCS1003003662

Name of Student: ARYAN GUPTA

Batch: 2025 - 2029

1. CANDIDATE'S DECLARATION

I, **ARYAN GUPTA**, do hereby declare that the **internship report** titled “**Social Media Intern**” has been completed by me to fulfil the requirement for the award of the **degree of Bachelor of Technology in Computer Science and Engineering**. All the references have been quoted and I have not taken as such any material from any other source. I affirm that this report is my own and has not been submitted to any other institute for any degree/diploma requirement, and further I shall be solely responsible for any kind of copyright violation in this regard.

Student Name: ARYAN GUPTA

Roll No.: 25SCS1003003662

ACKNOWLEDGEMENT

I am using this opportunity to express my gratitude to everyone who supported me throughout the Internship Program. I am thankful for their aspiring guidance, invaluable constructive criticism, and friendly advice during this work. I am sincerely grateful to them for sharing their truthful and illuminating views on a number of issues related to this work.

I express my deepest gratitude to **Mr. Tanmay Garg**, Founder of **AiPply (Dinmay Jobsearch Tech LLP)**, for providing me with the opportunity to serve as a Social Media Intern. His continuous mentorship, strategic guidance, and constructive feedback throughout the Two month internship were invaluable in shaping my professional understanding of brand communication, digital engagement, and AI-driven content workflows.

I would also like to thank the faculty and leadership of the **School of Computer Science and Engineering, IILM University, Greater Noida**, for their continuous encouragement and academic backing.

I express my gratitude to my parents for their blessings and unwavering support.

3. INTERNSHIP COMPLETION CERTIFICATE

DINMAY JOBSEARCH TECH LLP
B - 301, GOLDEN PALMS, NOIDA, 201305

Certificate of Completion

To Whom It May Concern,
2nd August, 2026

This is to certify that Mr. Aryan Gupta was employed with AiPply as a Social Media Intern from 1st June 2026 to 1st August 2026, on which date he was relieved from his duties.

During his tenure, he managed content for LinkedIn and Instagram, overseeing the full cycle from brand voice and content generation to posting and audience engagement. He managed his responsibilities while meeting service quality standards.

He was sincere, professional, and committed in his role. He is relieved in good standing with no pending dues or disciplinary matters.

We wish him the best in his future endeavors.

A handwritten signature in black ink, appearing to read "Tanmay Garg".

4. PROJECT DESCRIPTION

4.1 Introduction

This internship report presents a comprehensive account of the two-month industry internship completed by **Aryan Gupta** (Roll No. 25SCS1003003662) at **AiPply (Dinmay Jobsearch Tech LLP)**, spanning from **June 1, 2026, to August 1, 2026**. The professional training was undertaken in partial fulfilment of the academic curriculum requirements for the degree of **Bachelor of Technology in Computer Science & Engineering** at the **School of Computer Science and Engineering, IILM University, Greater Noida**.

Serving in the official capacity of **Social Media Intern** under the direct mentorship and supervision of Founder **Mr. Tanmay Garg**, the internship focused on using AI tools for practical social media content creation and communication. Over the two-month tenure, the training emphasized brand awareness and content planning, multi-channel content management, audience engagement, and the use of AI tools for content creation across major industry platforms, specifically **Instagram and LinkedIn**.

4.2 Organization Profile

AiPply (legally registered as **Dinmay Jobsearch Tech LLP**, located at B-301, Golden Palms, Noida, UP - 201305) is an early-stage, AI-powered career tech platform designed to make the job-search process easier for modern job seekers.

The primary mission of the organization is to eliminate job application fatigue experienced by college engineering students, recent graduates, and early-career aspirants across India. The platform's technical ecosystem features job application assistance, resume improvement tools, and personalized career guidance. Beyond software products, AiPply regularly conducts educational initiatives, including live resume optimization workshops, cold emailing strategy sessions, and student guidance webinars led by Founder Tanmay Garg.

4.3 Problem Statement

During active campus hiring cycles and graduate placement seasons, engineering students face common difficulties, including resume rejection by screening systems, low recruiter response rates on cold outreach, and burnout caused by high-volume manual job applications.

Simultaneously, early-stage technology startups often face challenges in building online presence and trust. Direct promotional advertising and sales-heavy marketing frequently fail to engage student communities who prioritize authentic value, mentorship, and career clarity over corporate promotion. The fundamental operational problem addressed during this internship was to build, test, and execute a scalable, value-first content pipeline for AiPply. This required designing a consistent content process that solves real student placement pain points while maintaining a consistent publishing schedule across platforms without reliance on aggressive commercial selling.

4.4 Project Objectives

To address the challenges identified in the problem statement, the internship was structured around five core objectives:

1. **Build Brand Awareness & Trust:** Position AiPply as a trusted source of career information and guidance for students by creating useful, problem-solving social media content.
2. **Create Content for Multiple Platforms:** Plan, script, visually design, and publish relevant content formats systematically across both Instagram and LinkedIn.
3. **Use AI Tools for Content Creation:** Use tools such as ChatGPT, Claude Pro, Gemini Pro, and Nano Banana for research, ideas, writing, and visual content creation while keeping human review and decision-making involved.

4. **Lead Flagship Campaign Execution:** Contribute to the planning, scripting, design, and distribution of the **#StopApplyingStartGettingShortlisted (TrustHero)** campaign to tackle placement anxieties.
5. **Review Content Performance:** Monitor organic output performance and channel response metrics to improve future content hooks, post structures, and visual layouts.

4.5 Scope of the Project

The scope of this internship project focused on social media content planning, content creation, AI-assisted work, and visual design across **Instagram and LinkedIn**.

- **In-Scope Activities:** Audience research, content writing, post hook creation, carousel planning, graphic design, event promotional material design, AI-assisted content creation, community engagement, and content review with the founder and team.
- **Out-of-Scope Activities:** Paid advertising management, backend development of the AiPply platform, financial and revenue-related work, and activities outside social media content and marketing.

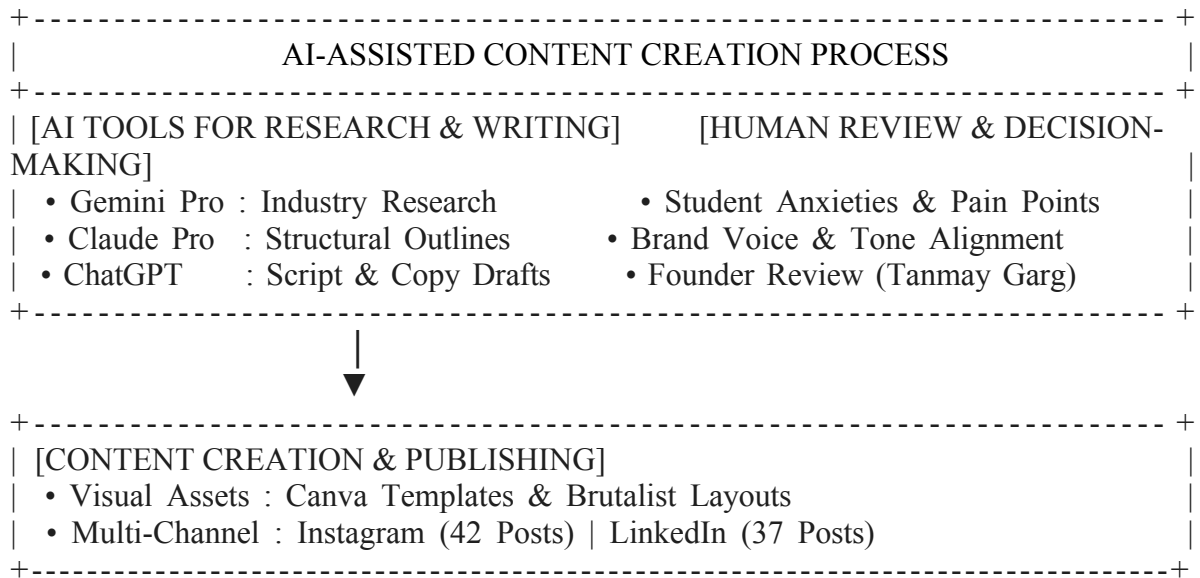

4.6 Technologies and Tools Used

Table 4.1: Tools and Technologies Used During the Internship

Tool / Platform	Category	Functional Purpose & Application
Canva	Graphic & Visual Design	Designing post creatives, multi-slide carousels, event banners, and brutalist layouts.
ChatGPT	AI Writing & Idea Tool	Creating engaging hooks, drafting post copy, and refining text structure.
Claude Pro	AI Writing & Planning Tool	Strategic brainstorming, LinkedIn post planning, and carousel scripting.
Gemini Pro	AI Research & Writing Tool	Placement trend research, topic research, and content planning.
Nano Banana	AI Visual Tool	AI-assisted visual creative generation and visual asset ideation.

4.7 System Architecture (Content Creation Process)

Figure 4.1: AI-Assisted Content Creation Process

4.8 Methodology

The content creation process followed a structured 10-step workflow:

Figure 4.2: Content Planning and Production Lifecycle

Audience Problem → Content Ideation → Team Discussion → AI-Assisted Research
→ Personalization → Content Drafting → Visual Design (Canva) → Review & Refinement
→ Publishing → Audience Engagement

Content Pillars: Content was organized into five main categories: *Placement Season*, *Career Education*, *AI Productivity Tips*, *Product*, and *Community & Culture*.

Flagship Campaign: Execution of the #StopApplyingStartGettingShortlisted campaign covering application pitfalls, profile optimization, interview readiness, and personal branding.

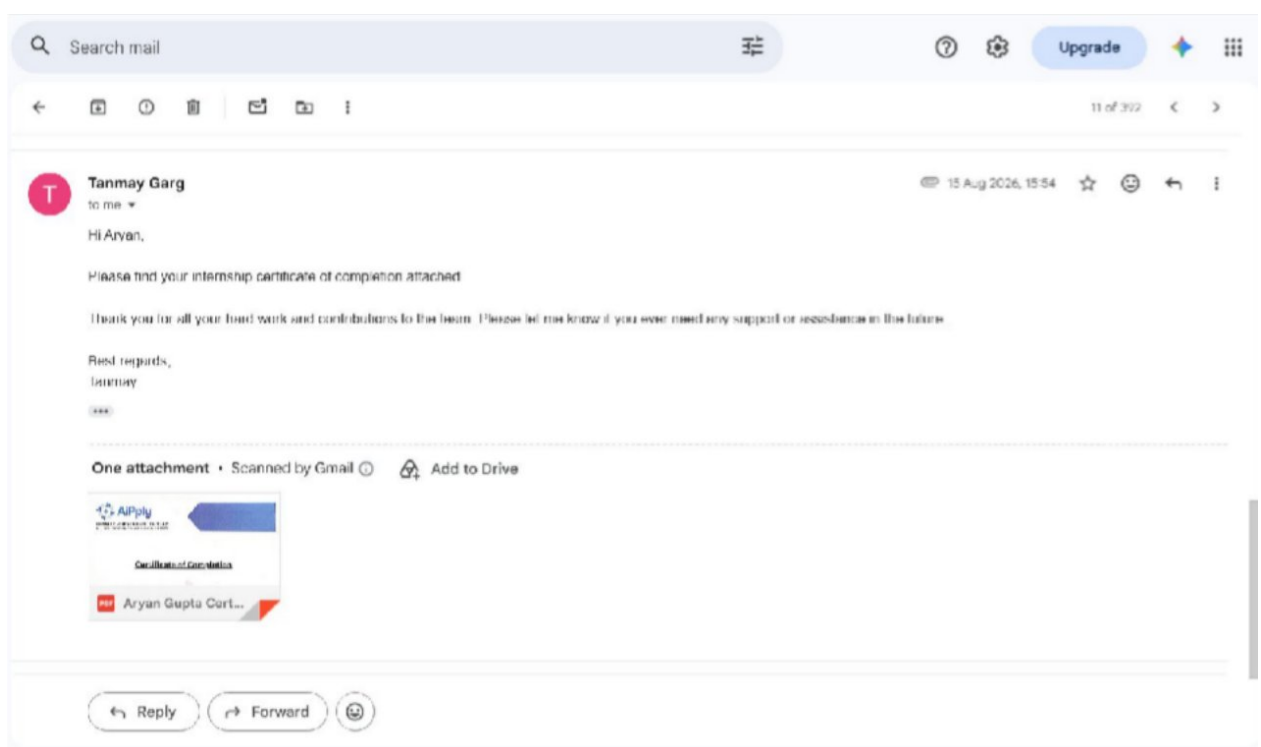

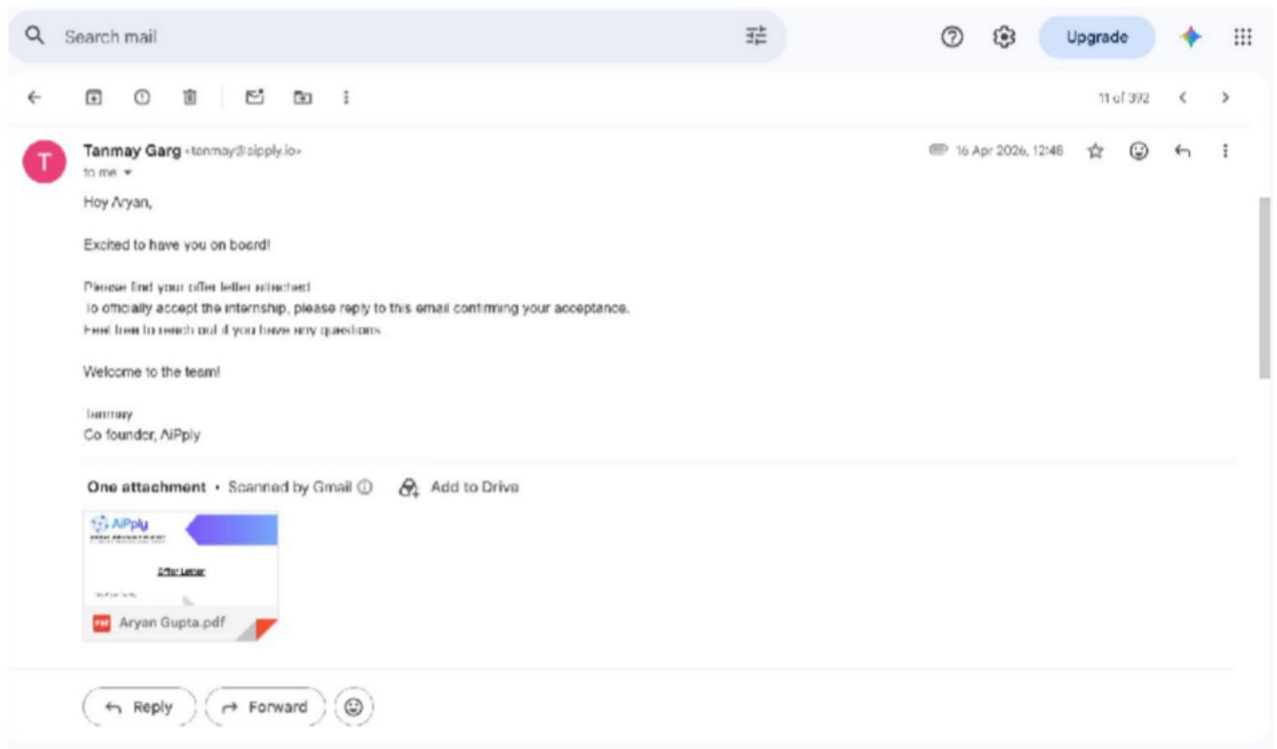

4.9 Results and Outcomes

Table 4.2: Content Output and Performance

Performance Metric	Results and Outcome	Platform Context
Instagram Output	42 Posts	Short videos/reels, carousels, and static graphics.
LinkedIn Output	37 Posts	Long-form posts, event posts, and announcements.
Total Content Deliverables	79 Posts	Combined 2-month cross-platform output.
LinkedIn Channel Growth	+7.5%	Growth during the internship period.
Peak LinkedIn Engagement	Up to 21%	Peak engagement rate on career guides.

4.10 Certificates of Completion and Communication Proof

The official Internship Offer Letter and the Internship Completion Certificate issued by **AiPply (Dinmay Jobsearch Tech LLP)**, confirming the successful completion of the 2-month Social Media Internship from **June 1, 2026, to August 1, 2026**, are attached in Chapter 3 of this report. In addition to the official certificates, the internship offer and completion confirmation emails received from Founder Mr. Tanmay Garg are attached below as further communication proof :
